

## **BEAM Media Corp Announces Merger with Beacon Technologies, Inc.**

**Dallas, TX – October 2, 2025** – BEAM Media Corp, the world’s largest multistreaming platform, today announced that it has successfully merged with **Beacon Technologies, Inc.** The boards of directors of both companies unanimously approved the merger after reviewing a case study that analyzed the advantages, cost and strategic alignment of this consolidation.

Through this merger, BEAM Media Corp will incorporate Beacon’s **patented technologies** into its livestreaming ecosystem and **revamp Beacon’s offerings** to align with BEAM’s mission of delivering next-generation interactive experiences.

### **Strategic Benefits of the Merger**

- **Integration of Patented Technologies:** Beacon’s proprietary intellectual property will strengthen BEAM’s technology stack and enhance scalability.
- **Expanded Product Offerings:** BEAM will modernize and relaunch Beacon’s portfolio, adding value for creators and viewers alike.
- **Accelerated Innovation:** Combining engineering and product development resources from both companies will shorten the timeline for deploying advanced features.
- **Enhanced Market Position:** The merger deepens BEAM’s differentiation in the competitive livestreaming market and broadens monetization opportunities.

### **Leadership Commentary**

“Today marks another major step in BEAM’s journey,” said **Angel Munoz, CEO of BEAM Media Corp.** “By merging Beacon into BEAM, we

are not only strengthening BEAM's intellectual property portfolio but also unlocking new opportunities to deliver cutting-edge technology for our community. This merger positions us to innovate faster, scale smarter, and provide an even more powerful livestreaming platform for creators around the world."

The merger is effective immediately.

### **About BEAM Media Corp**

Launched in April 2024, BEAM Media Corp operates BEAM ([beamstream.gg](https://beamstream.gg)), the world's largest multistreaming platform, enabling creators to broadcast to over 85 platforms across 165 countries simultaneously. BEAM's mission is to empower creators by simplifying livestreaming, increasing global reach, and building an interactive community-driven ecosystem.

### **About Beacon Technologies, Inc.**

Launched in November 2020, is the owner of Beacon MAX ([beaconmax.com](https://beaconmax.com)) a next generation suite of communication services, and holds several patents on the core technologies that power its user experiences.
